Share of population and income by age of chief earner in rural India.....	46
Distribution of households and income by major source of household income.....	48
Minimum Household Income (MHI) in urban India.....	50
Household Premiumness Index (HPI) in urban India.....	54
Rural lifestyle indicators	58
Household size in rural India	64
Minimum Household Income (MHI) in rural India.....	66
Occupation in rural India.....	70
Socio-economic classes – All India	74
House ownership – All India.....	76

Education and earnings.....78

Earnings by educational level of chief earner.....	78
Distribution of households by literacy.....	79
Earnings by level of education for salaried households – All India.....	79
Level of education – All India	80

Contents

Income and landholding patterns.....	82
Distribution of households by size of landholding.....	82
Household profile by size of landholding	82
Distribution of households by level of education of chief earner and size of landholding.....	83
Distribution of households by source of income and size of landholding.....	83
Income distribution by households	84
Profile of households in different categories of states	84
Distribution of households across state categories – All India	84
Profile of households by size of town	85
Profile of households in select cities	86
Impact of income on expenditure	87
Boomtowns register the fastest household income growth	88
The top 20 cities make up 10% of India’s population, but generate 31% of income	88
The high-income segment will triple by 2016 and quadruple in boomtowns	89
More than half of the households will be middle class by 2016.....	89
Household consumption expenditure as a share of income.....	89
Surplus income rates in top cities are nearly double the national average	90
19% of households prefer to keep surplus income at home.....	90
Surat leads in household income levels.....	91
Income distribution by per capita income quintiles	92
Estimates of income inequality.....	93
Distribution of households by major source of income	93
Distribution of households across income quintiles – All India.....	94
Estimates of routine and non-routine expenditure by income quintiles	94
Distribution of routine expenditure by income quintiles	95
Distribution of non-routine expenditure by income quintiles	95
Earnings of graduate households in select cities.....	95
Earnings by size of town and level of education of chief earner.....	96
Earnings by size of town and major source of income	96
Earnings of salaried and business households in select cities	97

Routine and non-routine expenditure	98
Estimates of routine and non-routine expenditure.....	98
Distribution of routine expenditure.....	99
Distribution of non-routine expenditure.....	99
Estimates of routine and non-routine expenditure by major source of income.....	99
Distribution of routine expenditure by major source of income.....	100
Distribution of non-routine expenditure by major source of income.....	100
Estimates of routine and non-routine expenditure by educational level of chief earner	101
Distribution of routine expenditure by educational level of chief earner ..	101
Distribution of non-routine expenditure by educational level of chief earner	102
Estimates of routine and non-routine expenditure by landholdings	103
Distribution of routine expenditure by landholdings	103
Distribution of non-routine expenditure by landholdings	103
Estimates of routine and non-routine expenditure by categories of states	104
Distribution of routine expenditure by categories of states	104
Distribution of non-routine expenditure by categories of states	104
Estimates of routine and non-routine expenditure by size of town	105
Distribution of routine expenditure by size of town	105
Distribution of non-routine expenditure by size of town	105
Financial vulnerability and consumer decision-making	106
Estimates of financial vulnerability	106
Estimates of income and expenditure – vulnerable vs. non-vulnerable households.....	106
Distribution of vulnerable vs. non-vulnerable households	107
Ownership of select consumer goods – vulnerable versus non-vulnerable households.....	107
Saving patterns of households	108
Estimates of surplus income, investment and savings in cash	109
by occupation of chief earner	109
Saving habits of households by educational level of chief earner	110
Saving habits of households by age of chief earner	110
Saving habits of households by categories of land.....	111

Contents

Saving habits of households by categories of states	111
Saving habits of households by size of town	112
Motivation to save for future	113
Preferred forms of saving	114
Depositing cash in banks versus keeping it at home	114
Ownership of accounts in financial institutions	115
Loans outstanding.....	116
Measures taken to overcome economic shock.....	117
Households' perceptions about financial security	118
